For over 100 years, Nguan Chiang has been a trusted household name in Thailand. As the oldest soy sauce brand in the country, we have become one of the largest producers, known for the best quality soy sauce in Thailand. Our products are widely recognized for their exceptional nutritional value, thanks to the high-quality ingredients we use.

It all began in 1912 when the Lekviriyakul family started making soy sauce in their kitchen, using a treasured family recipe. The rich flavor, aroma, and nutritional value quickly gained popularity in the local community. To meet increasing demand, the family established a small factory in Sapankhow on Jaowarat Road, and the business took off.

Today, Nguan Chiang is a thriving and innovative company that continues to uphold the original flavor and aroma that have made our products famous. With advanced research and development, we focus on maintaining quality, authenticity, and innovation in everything we do.

We take great pride in adhering to the highest safety standards and maintaining strict hygiene practices in our production processes. This ensures that every bottle of Nguan Chiang soy sauce delivers the best quality and supreme taste that our consumers expect.

Our commitment to excellence has earned us internationally recognized certifications, including BRGS, ISO 22000, Halal, Sedex, and HACCP, reflecting our dedication to producing world-class products.

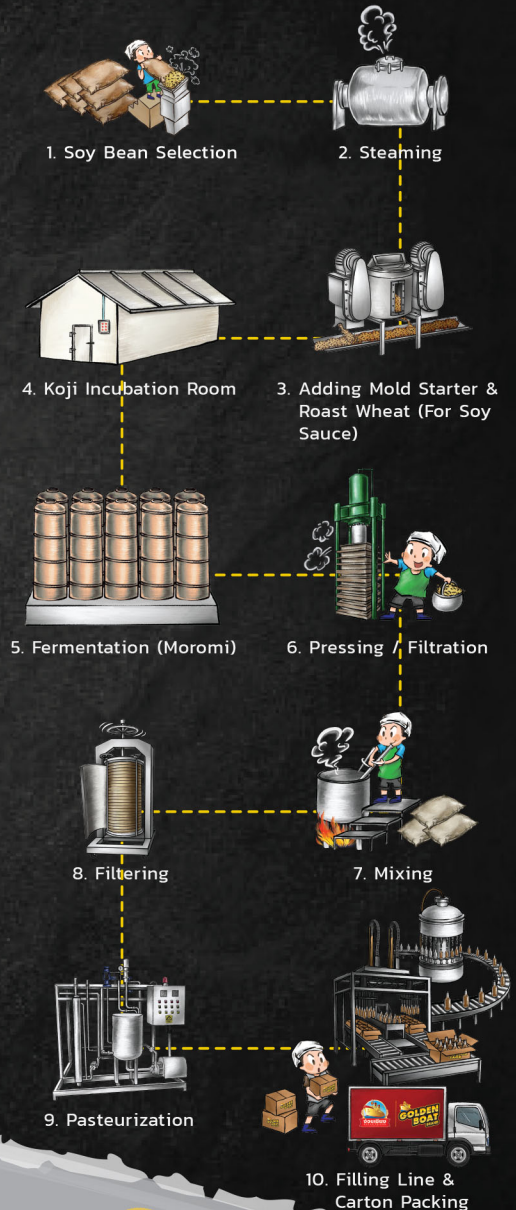

At Nguan Chiang, we are also committed to sustainability and responsible business practices. We continue to explore eco-friendly production processes and responsible sourcing, contributing to a more sustainable future.

#### What our customers say :

"Nguan Chiang's soy sauce has been an essential ingredient in our dishes for years. The rich, authentic flavor sets it apart from any other."  
– Executive Chef, Bangkok Restaurant

Join us on a journey through time and taste, where tradition meets innovation, and every drop of our soy sauce tells the story of passion, quality, and heritage.

## PRODUCTION PROCESS

# FAQ

## **What is the difference between Golden Boat soy sauce and other soy sauce?**

We use the best quality ingredients among all soy sauce brands. We have stringent controls across our production processes from beginning to end. We have maintained and enhanced the flavour, quality and taste of our secret recipe over 100 years. Our proprietary technology and advanced production techniques allow us to achieve unrivalled purity in aroma, and the highest protein content with highest nutritional value. Unlike many other brands, we exceed international standards for soy sauce content, due to our technical

## **Does Golden Boat soy sauce contain nuts, eggs, dairy and shellfish?**

No. Golden Boat Soy Sauce is naturally brewed and made from soybeans, wheat, salt and water only. Please note that our products contain only

## **How should soy sauce be stored?**

Opened bottles of soy sauce are best kept in the refrigerator where the soy sauce is protected from the effects of light and heat, especially for light usage. Otherwise soy sauce can be stored in room temperature.

## **How can you tell whether soy sauce is naturally brewed?**

Naturally brewed soy sauce is distinctive due to its colour, flavour and aroma, in addition to providing health benefits. However, it is difficult to sample the product at the supermarket. The best thing to do is to take a close look at the list of ingredients. Our naturally brewed soy sauce only contains the four natural ingredients of soybeans, wheat, water and salt. It does not contain any colourings or flavour enhancers. And it is naturally brewed rather than chemically brewed.

## **Is Golden Boat soy sauce made from genetically modified soybeans (GMO)?**

All our products are well selected from high quality ingredients and made using non-genetically modified soybeans and wheat. We take great care in selecting the ingredients that go into our products, as we have done for the past 100 years.

## **How long will Golden Boat sauces keep after opening?**

Due to the freshest highest quality ingredients we use, for the best quality we recommend using the sauces within 2 months of opening. Our sauce products of course last much longer, but for the best texture, taste and colour we recommend consumption within 2 months.

## **Is Golden Boat soy sauce suitable for vegetarians and vegans?**

Most of our products are all suitable for vegetarians and vegan diets. Please see the clearly labeled "V - vegetarian" symbol on the bottles.

## **Is soy sauce only suitable for Asian dishes?**

Despite having Asian origins, our naturally brewed soy sauce is a universal seasoning. It is perfect for Asian dishes and for many other types of cuisine - from soups to salads, meat to fish, vegetables and pasta.
